ABOUT ME

I am a dedicated Front-End Web Developer with expertise in HTML and CSS, including various frameworks. I possess a foundational understanding of JavaScript and PHP, continually expanding my skill set to create dynamic and engaging web experiences. Committed to delivering high-quality, user-centric solutions that blend functionality with aesthetics, I am passionate about staying at the forefront of web development trends to craft exceptional digital experiences.

PERSONAL PROJECTS

Oct 2022- Dec 2022

Car Rental System

I alongside my team created a car rental system in C language. It had functionalities for user and admin. The user could rent or return a car. The admin could keep track of the cars being sold.

Mar 2023 - June 2023

Banking System

I alongside my team created a banking system in java. It had functionalities like create, update, delete account, and atm. We used the concepts of OOP in this project.

June 2023 - Present

E-Commerce Website

I am currently working on a website which I am making by following youtube to improve my skills and understand backend more. The websites is made by using html, css, javascript, and php.
